## **P3** Personalized Prescription Plan

The P3 is an employee benefit that provides your employees and their families with a medication consultation to ensure that their drug plans are most effective. Employees and dependents are encouraged to call our pharmacist for a personalized drug evaluation before taking the test.

P3 helps both employers and their employees in the following ways:

- ✓ Saves money on medication waste
- ✓ Less employees on disability
- ✓ Less medication-related absenteeism
- ✓ Increased employee productivity and morale

# The Science Behind P3

We are all genetically unique, and so is our response to medications.

P3 works by identifying these unique genetic differences.

## WITHOUT P3

*One-size-fits-all  
prescribing method*

## WITH P3

*Personalized Prescribing  
method*

# The Science Behind P3 (Cont.)

## **P3 can enable your employee's doctor to:**

- ✓ Lower the dose of their medication to reduce side effects
- ✓ Increase the dose of their medication to improve the drug's efficiency
- ✓ Switch to a different drug that may work better

P3 provides a report with recommendations that have been clinically validated by at least one of the two leading consortias:

*Clinical Pharmacogenetics Implementation Consortium (CPIC)*, and

*Dutch Pharmacogenetics Working Group (DPWG)*

All testing is conducted at a state-of-the-art genetic laboratory that operates under the *current Good Laboratory Practice (cGLP)* guidelines set by Health Canada.

A close-up photograph of a young woman with light brown hair tied in a bun, wearing a white lab coat and a pink stethoscope. She is smiling and looking down at a light blue tablet computer she is holding with both hands. The background is a bright, out-of-focus window.

**RIGHT DRUG.  
RIGHT DOSE.  
RIGHT PERSON.**

# Eligibility and Price

## ELIGIBILITY

Employees and their dependents are eligible for a personalized drug evaluation if they are prescribed or currently are taking a medication that is included on our drug list. Please visit our website to get the complete list of drugs or call us at 1844-943-0210 to consult with a pharmacist.

## PRICE

The basic cost of P3 is between \$1.50 to \$3.00 per employee per month. The price is adjusted based on the number of employees and the average age of the work force. For more information please contact us at:

# How the Process Works

COMPANY ENROLS IN P<sub>3</sub>

EMPLOYEE CALLS US DIRECTLY  
1 (844) 943 0210  
Patient confidentially is maintained

SAMPLE KIT IS SENT TO THE EMPLOYEE

EMPLOYEE COLLECTS SALIVA SAMPLE  
Instructions on collecting the sample are included in the kit

EMPLOYEE SENDS THE SAMPLE KIT  
Mail to our laboratory using post paid envelope

ELECTRONIC REPORT GENERATED  
Electronic report of the genetic analysis is produced after  
7-10 business days

# How the Process Works (Cont.)

## PHARMACIST REVIEWS REPORT

The case pharmacist reviews and comprises a “Summary Report” by conducting personalized research using relevant scientific publications

## MEDICAL REPORT DELIVERED

The “Summary Report” is delivered to the employee and to his/her doctor and the case pharmacist reaches out to the employee for a telephone discussion to explain the report

## PHYSICIAN DISCUSSION

Employee's physician is invited to call the pharmacist at any time to discuss the medications

## PHARMACIST FOLLOW UP

The pharmacist follows-up with the employee from time to time to understand if the test results and recommendations were helpful and improved his/her health condition

## ENABLES EMPLOYEE'S DOCTOR

To prescribe the right drug at the right dose, specific to the employee

# Test Options
